EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Tomoki Tanida on 4/6/06.

The application has been amended as follows: Claims 12-30 have been cancelled.

Response to Amendment

2. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Reasons for Allowance

3. Claims 1, 3, 4, 9-11, and 31-34 allowed.
4. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in claim(s) 1 and 9, wherein the claimed invention comprises in claims 1 and 9, an optical element module comprising a second optical element positioned with respect to said reference optical axis, being out of contact with the groove and solder interposed between the second optical
